Yixiu Xiao

PhD Candidate in Mathematics, SJTU
Visiting Research Student, UNSW Sydney

Personal details

Address	School of Mathematics and Statistics, The University of New South Wales, Sydney, NSW 2052, Australia
Phone	(+61) 432 650 857
Email	yixiuxiao98@gmail.com
Languages	Chinese, English
ORCID	0009-0001-6909-0580

Education

Apr 2025–present **Visiting Research Student (Joint Training Program)**, *The University of New South Wales (UNSW Sydney)*, Sydney, Australia
Supervisor: Prof. Igor E. Shparlinski.

Sep 2021–present **Ph.D. Candidate, Mathematics**, *Shanghai Jiao Tong University*, Shanghai, China
Supervisor: Prof. Hongze Li.

Sep 2017–Jun 2021 **B.Sc. in Mathematics and Applied Mathematics**, *Northwest University*, Xi'an, China

Research Interests

Analytic Number Theory

- Distribution of rational points on curves and more general varieties over finite fields
- Exponential and character sums and their applications in number theory
- Harmonic analysis and additive combinatorics in number theory

Current Research Directions

- Shifted Bilinear Sums of Salié Sums and the Distribution of Modular Square Roots of Shifted Primes
- Kloosterman and Gauss Sums
- Large Sieve Inequalities over Short Intervals
- Estimating Exponential Sums Related to the Möbius Function via the Delta Circle Method
- Fractional parts of sums of square roots
- The square-free part of the palindromes

Publications

Published

Least Zero of a Cubic Form, with Hongze Li. *Frontiers of Mathematics*, 2025. DOI: 10.1007/s11464-024-0113-6.

Least Zero of Pairs of Additive Cubic Equations, with Hongze Li. *Forum Mathematicum*, 2026. DOI: 10.1515/forum-2025-0367.

Preprints (arXiv)

Large sieve inequality for sums of Legendre symbols over short intervals, with Igor E. Shparlinski. *arXiv*: 2604.23661.

Shifted bilinear sums of Salié sums and the distribution of modular square roots of shifted primes, with Igor E. Shparlinski. *arXiv*: 2601.10113.

Scholarships

2024 China Scholarship Council (CSC), State Scholarship Fund (Visiting PhD Student to Australia), 24 months. Covers international airfare, living stipend, and health insurance.

Talks

Diophantine equations and cubic forms, Prime Pals / Number Theory Group Seminar (internal), UNSW Canberra, Canberra, 9 Sep 2025.

Least zero of pairs of additive cubic equations, AustMS Annual Meeting, La Trobe University, Melbourne, 10 Dec 2025.

Research Experience

Research Assistant, Prof. Hongze Li, Shanghai Jiao Tong University, 2021–present.

Conducted research in analytic number theory, including exponential sums, character sums, Diophantine equations, and related problems in number theory. Participated in literature study, mathematical discussions, proof development, and manuscript preparation.

Research Assistant, School of Mathematics and Statistics, UNSW Sydney, 7 April 2026–present. Supervisor: Prof. Igor E. Shparlinski.

Teaching

Mathematical Analysis, Teaching Assistant, Shanghai Jiao Tong University, Fall terms (2021–2023).

Elementary Number Theory (Summer Term), Teaching Assistant, Shanghai Jiao Tong University, 2022–2024.

MATH8000 Student Support (Student Supervision), UNSW Sydney, Term 3 2025.

MATH8000-Student Support (CTP), UNSW Sydney, Term 1 2026–present.

MATH1141 Higher Mathematics 1A, Routine Marker, UNSW Sydney, Term 1 2026–present.
